

2-STEPS TO TRANSITION AN EXISTING CLUB TO AN EDRISING IL CHAPTER

- Does your district have a future educator club that isn't Educators Rising? If they do, then they are missing out on free planning resources, engaging activities, and so much more!
- Educators Rising is the ONLY Career & Technical Student Organization (CTSO) for ALL future educators. Future Teachers of America (FTA) turned into Future Educators Association (FEA). Then FEA transitioned into Educators Rising in 2015.

1

STEP ONE

Teachers Register for Free:

All current teacher leaders will complete their FREE Educators Rising Teacher Leader memberships. Then teachers will have access to the free planning resources.

2

STEP TWO

Register Students as Educators Rising Members

All current student participants should register as Educators Rising members.

- Teachers can complete students' Educators Rising student memberships for them.
- *All CTSOs rely on student and advisor memberships for funding eligibility and longevity.*

YOUR EDRISING IL CTSO CHAPTER IS READY!

- A. Teacher leaders should access their Chapter Membership Roster to ensure that all students are registered to the correct teacher leader, school, and state.
- B. Log in and go to Educators Rising High School Resources – Teacher Leader Resources
- C. Locate EdRising IL Resources: <https://ieanea.org/resources/illinois-educator-pipeline/>
